Precautions to Avoid Possible Exposure to Excessive Microwave Energy

1. Do not attempt to operate this oven with the door open since open-door operation can result in harmful exposure to microwave energy. It is important not to defeat or tamper with the safety interlocks.
2. Do not place any object between the oven front face and the door or allow soil or cleaner residue to accumulate on sealing surfaces.
3. Do not operate the oven if it is damaged. It is very important that the oven door close properly and that there is no damage to the
 - a) Door (including any dents),
 - b) Hinges and latches (broken or loosened),
 - c) Door seals and sealing surfaces.
4. The oven should not be adjusted or repaired by anyone except qualified service personnel.

Important Safety Instructions

When using electrical appliance basic safety precautions should be followed, including the following:

WARNING!--To reduce the risk of burns, electric shock, fire, injury to persons or exposure to excessive microwave energy:

1. Read all instructions before using the appliance.
2. Use this appliance only for its intended use as described in the manual. Do not use corrosive chemicals or vapors in this appliance. This type of oven is specifically designed to heat, cook or dry food. It is not designed for industrial or laboratory use.
drying of food or clothing and heating warming pads, slippers, sponges, damp cloth and similar may lead to risk of injury, ignition or fire.
The microwave oven is intended for defrosting, cooking and steaming of food only.
3. Do not operate the oven when empty.
4. Do not operate this appliance if it has a damaged cord or plug, if it is not working properly, or if it has been damaged or dropped. If the supply cord is damaged, it must be replaced by the manufacturer or its service agent or a similarly qualified person in order to avoid a hazard.
5. **WARNING!**--When the appliance is operated in the combination mode, children should only use the oven under adult supervision due to the temperatures generated.
6. **WARNING!**--Only allow children to use the oven without supervision when adequate instructions have been given so that the child is able to use the oven in a safe way and understands the hazards of improper use.
7. To reduce the risk of fire in the oven cavity:
 - When heating food in plastic or paper container, check the oven frequently to the possibility of ignition.

- Remove wire twist-ties from paper or plastic bags before placing bag in oven.
 - If smoke is observed, switch off or unplug the appliance and keep the door closed in order to stifle any flames.
 - Do not use the cavity for storage purposes. Do not leave paper products, cooking utensils, or food in the cavity when not in use.
8. **WARNING!**--Liquid or other food must not be heated in sealed containers since they are liable to explode.
 9. Microwave heating of beverage can result in delayed eruptive boiling, therefore care has to be taken when handle the container.
 10. Do not fry food in the oven. Hot oil can damage oven parts and utensils and even result in skin burns.
 11. Eggs in their shell and whole hard-boiled eggs should not be heated in microwave ovens since they may explode even after microwave heating has ended.
 12. Pierce foods with heavy skins such as potatoes, whole squashes, apples and chestnuts before cooking.
 13. The contents of feeding bottles and baby jars should be stirred or shaken and the temperature should be checked before serving in order to avoid burns.
 14. Cooking utensils may become hot because of heat transferred from the heated food. Potholders may be needed to handle the utensil.
 15. Utensils should be checked to ensure that they are suitable for use in microwave oven.
 16. **WARNING!**--It is hazardous for anyone other than a trained person to carry out any service or repair operation which involves the removal of any cover which gives protection against exposure to microwave energy.
 17. This product is a Group 2 Class B ISM equipment. The definition of Group 2 which contains all ISM (Industrial, Scientific and Medical) equipment in which radio-frequency energy is intentionally generated and/or used in the form of electromagnetic radiation for the treatment of material, and spark erosion equipment. For Class B equipment is equipment suitable for use in domestic establishments and in establishments directly connected to a low voltage power supply network which supplies buildings used for domestic purpose.
 18. This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
 19. Children should be supervised to ensure that they do not play with the appliance.
 20. The microwave oven is only used in freestanding.
 21. **WARNING!**--Do not install oven over a range cooktop or other heat-producing appliance. if installed could be damaged and the warranty would be avoid .
 22. The accessible surface may be hot during operation.
 23. The microwave oven shall not be placed in a cabinet.
 24. The door or the outer surface may get hot when the appliance is operating.
 25. The temperature of accessible surfaces may be high when the appliance is operating.
 26. The appliance shall be placed against a wall.
 27. Appliance is not to be used by children or persons with reduced physical, sensory or mental

capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction.

28. Children being supervised not to play with appliance.
29. **WARNING!**--If the door or door seals are damaged, the oven must not be operated until it has been repaired by a competent person.
30. The instructions shall state that appliances are not intended to be operated by means of an external timer or separate remote-control system.
31. The microwave oven is for household use only and not for commercial use.
32. Never remove the distance holder in the back or on the sides, as it ensures a minimum distance from the wall for air circulation.
33. Please secure the turn table before you move the appliance to avoid damages.
34. **CAUTION!**--It is dangerous to repair or maintain the appliance by no other than a specialist because under these circumstances the cover have to be removed which assures protection against microwave radiation. This applies to changing the power cord or the lighting as well. Send the appliance in these cases to our service centre.
35. The microwave oven is intended for defrosting, cooking and steaming of food only.
36. Use gloves if you remove any heated food.
37. Caution! Steam will escape, when opening lids or wrapping foil.
38. This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children unless they are aged from 8 years and above and supervised.
39. If smoke is emitted, switch off or unplug the appliance and keep the door closed in order to stifle.

Specifications

Power Consumption	230V~50Hz, 1200W(microwave); 1200W(grill); 2200W(convection)
Output	800W
Operation Frequency	2450MHz
Outside Dimensions	262mm(H)×452mm(W)×390mm(D)
Oven Capacity	20Litres
Cooking Uniformity	Turntable System
Net Weight	Approx.15.17kg

Installation Guide

1. Make sure that all the packing materials are removed from the inside of the door.
2. **WARNING!**--Check the oven for any damage, such as misaligned or bent door, damaged door seals and sealing surface, broken or loose door hinges and latches and dents inside the cavity or on the door. If there is any damage, do not operate the oven and contact qualified service personnel.
3. This microwave oven must be placed on a flat, stable surface to hold its weight and the heaviest food likely to be cooked in the oven.
4. Do not place the oven where heat, moisture, or high humidity are generated, or near combustible materials.
5. For correct operation, the oven must have sufficient airflow. Allow 20cm of space above the oven, 10cm at back and 5cm at both sides. Do not cover or block any openings on the appliance. Do not remove feet.
6. Do not operate the oven without glass tray, roller support, and shaft in their proper positions.
7. Make sure that the power supply cord is undamaged and does not run under the oven or over any hot or sharp surface.
8. The socket must be readily accessible so that it can be easily unplugged in an emergency.
9. Do not use the oven outdoors.

Grounding Instructions

This appliance must be grounded. This oven is equipped with a cord having a grounding wire with a grounding plug. It must be plugged into a wall receptacle that is properly installed and grounded. In the event of an electrical short circuit, grounding reduces risk of electric shock by providing an escape wire for the electric current. It is recommended that a separate circuit serving only the oven be provided. Using a high voltage is dangerous and may result in a fire or other accident causing oven damage.

WARNING!--Improper use of the grounding plug can result in a risk of electric shock.

Note:

1. If you have any questions about the grounding or electrical instructions, consult a qualified electrician or service person.
2. Neither the manufacturer nor the dealer can accept any liability for damage to the oven or personal injury resulting from failure to observe the electrical connection procedures.

The wires in this cable main are colored in accordance with the following code:

Green and Yellow = EARTH

Blue = NEUTRAL

Brown = LIVE

Radio Interference

Operation of the microwave oven can cause interference to your radio, TV, or similar equipment. When there is interference, it may be reduced or eliminated by taking the following measures:

1. Clean door and sealing surface of the oven.
2. Reorient the receiving antenna of radio or television.
3. Relocate the microwave oven with respect to the receiver.
4. Move the microwave oven away from the receiver.
5. Plug the microwave oven into a different outlet so that microwave oven and receiver are on different branch circuits.

Before Calling For Service

Before asking for service, please check each item below:

- Check to ensure the oven is plugged in securely. If not, remove the plug from the outlet, wait 10 seconds, and plug it in again securely.
- Check for a blown circuit fuse or a tripped main circuit breaker. If these seem to be operating properly, test the outlet with another appliance.
- Check to ensure the control panel is programmed correctly and the timer is set.
- Check to ensure the door is securely closed, engaging the door lock system. If the door is not properly closed, the microwave energy will not flow inside.

IF NONE OF THE ABOVE RECTIFIES THE SITUATION, THEN CONTACT A QUALIFIED TECHNICIAN. DO NOT TRY TO ADJUST OR REPAIR THE OVEN YOURSELF.

Cooking Techniques

1. Arrange food carefully. Place thickest areas towards outside of dish.
2. Watch cooking time. Cook for the shortest amount of time indicated and add more as needed. Food severely overcooked can smoke or ignite.
3. Cover foods while cooking. Covers prevent spattering and help foods to cook evenly.
4. Turn foods over once during microwave cooking to speed cooking of such foods as chicken and hamburgers. Large items like roasts must be turned over at least once.
5. Rearrange foods such as meatballs halfway through cooking both from top to bottom and from the center of the dish to the outside.

Cooking Utensils Guide

1. The ideal material for a microwave utensil is transparent to microwave, it allows energy to pass through the container and heat the food.
2. Microwave cannot penetrate metal, so metal utensils or dishes with metallic trim should not be used.
3. Do not use recycled paper products when microwave cooking, as they may contain small metal fragments which may cause sparks and/or fires.
4. Round /oval dishes rather than square/oblong ones are recommend, as food in corners tends to overcook.
5. Narrow strips of aluminum foil may be used to prevent overcooking of exposed areas. But be careful don't use too much and keep a distance of 1 inch (2.54cm) between foil and cavity.

The list below is a general guide to help you select the correct utensils.

Cookware	Microwave	Grill	Convection	Combination*
Heat-Resistant Glass	Yes	Yes	Yes	Yes
Non Heat-Resistant Glass	No	No	No	No
Heat-Resistant Ceramics	Yes	Yes	Yes	Yes
Microwave-Safe Plastic Dish	Yes	No	No	No
Kitchen Paper	Yes	No	No	No
Metal Tray	No	Yes	Yes	No
Metal Rack	No	Yes	Yes	No
Aluminum Foil & Foil Containers	No	Yes	Yes	No

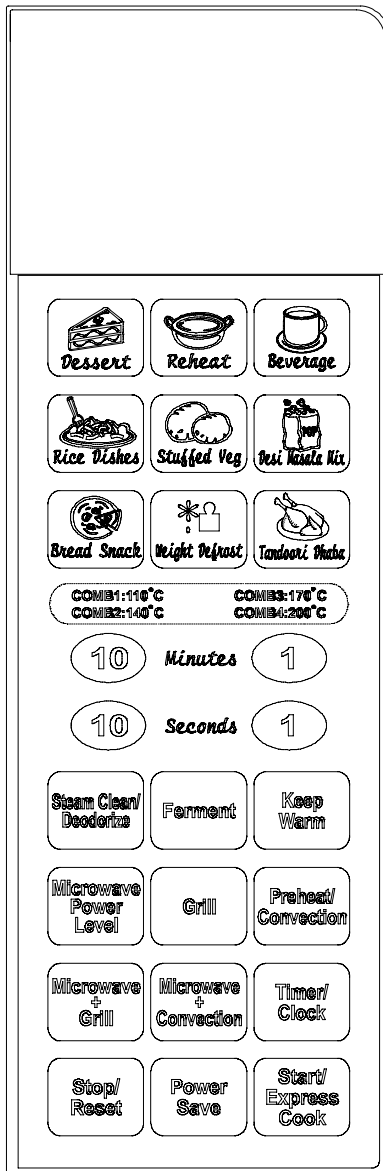

Combination: applicable for both "microwave + grill", and "microwave + convection" cooking.

Control Panel

● DISPLAY

Cooking time, power, indicators and clock time are displayed.

● AUTO COOK MENUS

There are 7 kinds of auto cook menus. Use to set auto cook program. 71 options provided to let you cook more dishes with this programme.

● WEIGHT DEFROST

Use to set weight defrost program.

● NUMBER PADS (10/1 Minutes, 10/1 Seconds)

Use to set time.

● CLEAN BY STEAMING

Use to set steam clean program.

● DEODORIZE

Use to set deodorize program.

● FERMENT

Use to set ferment program.

● KEEP WARM

Use to set keep warm program.

● POWER

Use to select microwave power level.

● GRILL

Use to set grill cooking.

● PREHEAT/CONVECTION

Use to set convection cooking.

● MICROWAVE+GRILL

Use to set microwave and grill combination cooking.

● MICROWAVE+ CONVECTION

Use to set microwave and convection combination cooking.

● TIMER/CLOCK

Use to set timer program or the current time.

● STOP/RESET

Use to pause a cooking or cancel all settings or set child lock.

● POWER SAVE

Use to set power save function.

● START/EXPRESS COOK

Use to start the oven or set express cook program.

● REHEAT

Use to set reheat program

Operation Instructions

- During cooking, if you press STOP/RESET pad once or open the door, the program will be paused, then press START pad to resume, but if you press STOP/RESET pad twice, the program will be canceled.
- After cooking programme ends, the system will sound beeps to remind user every two minutes until user selects other programme or open the door.

Setting Clock

1. Touch TIMER/CLOCK pad for 3 seconds.
2. Use the number pads to set correct time.
3. Touch TIMER/CLOCK pad to confirm.

Microwave Cooking

During cooking, the current power level can be seen by touching POWER pad.

1. Touch POWER pad repeatedly to select microwave power level.

Power Level	100%	90%	80%	70%	60%	50%	40%	30%	20%	10%	0%
Display	P-HI	P-90	P-80	P-70	P-60	P-50	P-40	P-30	P-20	P-10	P-00

2. Use the number pads to enter cooking time. The longest time is 99 minutes 99 seconds.
3. Touch START pad.

Weight Defrost

The defrosting time and power level are adjusted automatically once the weight is programmed. The range weight of frozen food varies between 100g and 1800g.

1. Touch WEIGHT DEFROST pad repeatedly to select food weight.
2. Touch START pad.

Note: During defrosting program, the system will pause and sound beeps to remind user to turn food over, and then press START pad to resume.

Timer Function

1. In standby state or during cooking, touch TIMER/CLOCK pad.
2. Use the number pads to enter desired time. The longest time is 99 minutes 99 seconds.
3. Touch START pad.

Note:

You can check the countdown time by pressing TIMER/CLOCK pad, if press STOP/RESET pad when the display shows the time, the function is cancelled.

Express Cook

In standby mode, press START/EXPRESS COOK pad repeatedly to enter cooking time, the longest time is 10 minutes, and the oven will start automatically at 100% high power level.

Grill Cooking

Grill cooking is particularly useful for thin slices of meat, steaks, chops, kebabs, sausages and pieces of chicken. The longest cooking time is 99 minutes 99 seconds.

1. Touch GRILL pad.
2. Use the number pads to enter cooking time.
3. Touch START pad.

Microwave + Grill Cooking

During cooking, the current power level can be seen by touching MICROWAVE+GRILL pad.

1. Touch MICROWAVE+GRILL pad once or twice to select combination mode.
2. Use the number pads to enter cooking time. The longest time is 99 minutes 99 seconds.
3. Touch START pad.

COMBINATION 1

30% time for microwave cooking, 70% for grill cooking. Applicable for cooking fish, au gratin. Suppose you want to set combination 1 cooking for 25 minutes.

Touch STOP/RESET pad.

Touch MICROWAVE + GRILL pad twice when C-1, GRILL, MICRO will show on display screen.

Touch number pads to enter 25:00.

Touch START pad.

COMBINATION 2

55% time for microwave cooking, 45% for grill cooking. Applicable for cooking pudding, omelets, baked potatoes and poultry.

Suppose you want to set combination 2 cooking for 12 minutes.

Touch STOP/RESET pad.

Touch MICROWAVE + GRILL pad thrice when C-2, GRILL, MICRO will show on display screen.

Touch number pads to enter 12:00.

Touch START pad.

Convection Cooking

During convection cooking, hot air is circulated throughout the oven cavity to make crisp foods quickly and evenly. This oven has ten different cooking temperatures from 110C to 200C. The longest cooking time is 99 minutes 99 seconds. During cooking, the current temperature can be seen by touching CONVECTION pad.

To Cook with Convection:

1. Touch CONVECTION pad repeatedly to select desired temperature.
2. Use the number pads to enter cooking time.
3. Touch START pad.

To Preheat and Cook with Convection:

Your oven can be programmed to combine preheating and convection cooking operations.

1. Touch CONVECTION pad repeatedly to select desired temperature.
2. Touch START pad. When the oven reaches the programmed temperature, beeps will sound.
3. Open the door and place container of food at the center of the turntable.
4. Use the number pads to enter cooking time.
5. Touch START pad.

Microwave + Convection Cooking

This oven has four different combination cooking temperatures from 110C to 200C. It's easy to cook with both convection heat and microwave automatically. The longest cooking time is 99 minutes 99 seconds. During cooking, the current combination temperature can be seen by touching MICROWAVE + CONVECTION pad.

1. Touch MICROWAVE + CONVECTION pad repeatedly to select desired combination temperature.

	temperature(°C)
COMB1	110
COMB2	140
COMB3	170
COMB4	200

2. Use the number pads to enter cooking time.
3. Touch START pad.

Multistage Cooking

First stage (Select any one)	Microwave cooking / Grill cooking / Convection cooking (without preheating) .
---------------------------------	---

option)	
Second stage(Select any one option)	Microwave cooking / Grill cooking / Convection cooking (without preheating) .
Third stage(Select any one option)	Microwave cooking / Grill cooking / Convection cooking (without preheating) .

1. Set the first stage cooking program. NOT TOUCH START.
2. Set the second stage cooking program. NOT TOUCH.
3. Set the third stage cooking program.
4. Touch START pad.

Note: If you need a two-stage cooking program, omit the third step.

Power Save

When the oven isn't used, you can set power save mode.

In standby state, press POWER SAVE pad, then the display will be black. The system enters into power save mode until you press any pad.

Steam Clean

It helps you to clean the oven easily. The default setting is microwave working for 5 minutes at full power level.

1. Place a microwave container with 200ml water into the oven.
2. Touch CLEAN BY STEAMING pad once.
3. Press START pad.
4. After program ends, move the microwave container and glass tray away.
5. Use a soft and dry cloth to clean the oven cavity and door.

Deodorize

This function can refresh the air in the oven. Empty the oven before using it. The default setting is grill working for 5 minutes at full power level.

1. Make sure the oven is empty, and then close the door.
2. Touch DEODORIZE pad.
3. Touch START pad.

Keep Warm

It helps you to keep food warm easily. The default setting is convection working for 30 minutes at 50C temperature.

1. Place a convection container (Heat resistant Glass) with food into the oven ,Touch KEEP

- WARM pad.
2. If you want to change the default time, use the number pads to enter time. The longest time is 99 minutes 99 seconds.
 3. Press START pad.

Ferment

This function is used for bread dough rise, setting of curds etc. For ½ kg of dough : Place the dough in a heat resistant bowl .Cover with Cling film .Place the bowl on the turntable .Press Ferment and Start the programme.

Setting Child Lock

The lock prevents unsupervised operation by children.

- To set the child lock: In standby mode, press STOP/RESET pad for 3 seconds, then a beep will sound. In the lock state, the oven can't be operated.
- To cancel the child lock: Press STOP/RESET pad for 3 seconds, then a beep will sound, and the oven can be operated.

Automatic Protection Mechanism

Cooling Feature: The controlling system of the microwave oven has the feature of cooling. As for any cooking mode which cooking time above 2 minutes, after finishing cooking, the oven fan will work about 3 minutes automatically to cool the oven for prolonging the life of the oven.

High Temperature Protection: While entering into super high temperature protection status, the system sounds beeps and the display shows "E01" until user press STOP/RESET pad to return normal condition. Please open the door to cool the oven cavity or call for consumer service to check.

Low Temperature Protection: While entering into super low temperature protection status, the system sounds beeps and the display shows "E02" until user press STOP/RESET pad to return normal condition. Please call for consumer service to check.

Sensor Malfunction Protection: When the sensor is short circuited, the system enters into protection mode and sound beeps, the display shows "E03" until user press STOP/RESET pad to return normal condition. Please call for consumer service to check and replace the faulty sensor.

Auto Cook

It is not necessary to program the cooking time and power level.

1. According to the cooking food, press DESSERT / REHEAT / BEVERAGE / RICE DISHES / STUFFED VEG / DESI MASALA MIX / BREAD SNACK / TANDOORI DHABA pad repeatedly to select the weight or amount of food.
2. Touch START pad.

Auto cook menus:

Code	Menu	Note:
1	Dessert (g)	<ul style="list-style-type: none"> ● For menus 7 and 8, use microwave + convection cooking, for menu 1, use convection cooking, the others use microwave cooking, please choose suitable cookware. ● For menu 8, during cooking, the system will pause and sound beeps to remind you to turn food over for uniform cooking, and then close the door and press START/EXPRESS COOK pad to resume. ● The result of auto cooking depends on factors such as fluctuation of voltage, the shape and size of food, your personal preference as to the doneness of certain foods and even how well you happen to place food in the oven. If you find the result at any rate not quite satisfactory, please adjust the cooking time a little bit accordingly.
2	Reheat (g)

Auto cook menus option -recipe guide (cooking timings of the auto cook menu are approximate; factors that may affect cooking are –starting temperature of food, cookwares used, volume, size and shape of food. as you become familiar with the oven, you will be able to adjust the timings).

sr . no	DESSERT	cookware	ingredients	method
1	chocolate cake	metal cake tin	1/2 cup maida 1/2 cup superfine sugar 2 level tbsp cocoa pinch salt 1/4 cup melted butter 1/2 cup milk 2 egg a little vanilla	place all ingredients into a mixing bowl in the above order. beat well for 2 minutes. pour into a prepared pan. bake by selecting the cake programme until cake is baked.
2	coffee cake	metal cake tin	1 cup –all purpose flour, ½ cup brown sugar , ¼ cup sugar, 1 tsp baking soda, ¼ tsp salt, ½ tsp ground ginger, 1 ¼ tbsp ground cinnamon, ¼ cup vegetable oil, ¾ cup apple peeled and chopped, 1/3 cup	mix flour, brown sugar, sugar, baking soda, and baking powder, salt, ground ginger and 2 ½ tsp cinnamon in a food processor or bowl. add oil and process until mixture resembles coarse meal. transfer 3/4 cup of mixture to smaller bowl and stir in remaining cinnamon. set aside and reserve

			buttermilk, 1 tsp vanilla, 1` large egg.	for topping. add remaining ingredients to mixture in processor and process until just combined. pour batter into prepared pan. sprinkle reserved topping over top and bake until tester comes out clean when inserted into centre. transfer to rack and cool slightly.
3	Pineapple upside down cake	metal cake tin	3 tablespoons butter 3/4 cup brown sugar, firmly packed 6 slices pineapple or 1 can (20 ounces) can of drained pineapple chunks maraschino cherries pecan halves ingredients for cake: 1/2 cup butter 1/2 cup sugar 1 egg 1 1/2 cups all-purpose flour 1 1/2 teaspoon baking powder 1/2 teaspoon salt 1/2 cup milk	in a 9-inch square cake pan, melt butter; sprinkle with brown sugar. arrange pineapple and cherries and nut halves on sugar, making a design. prepare cake batter: cream 1/2 cup butter; gradually add 1/2 cup sugar and beat until light and fluffy. add egg and beat well. add sifted dry ingredients alternately with the milk; beat until smooth, ending with dry ingredients. pour over pineapple design. bake by selecting the menu. let cake cool for about 5 minutes before turning out onto a serving plate. serve warm with whipped cream, if desired.
4	Spice cake	metal cake tin	1/3 cup soft butter 1 3/4 cups flour 1 1/3 cups brown sugar 3 tsp baking powder 2 eggs 1/2 tsp cinnamon 1/2 cup milk 1/2 tsp grated nutmeg 1/2 lb dates, pitted and cut in pieces	preheat oven, butter and flour pan. put ingredients in a bowl and beat all together for three minutes, using a wooden cake spoon. bake. if directions are followed this makes a most satisfactory cake; but if ingredients are added separately it will not prove a success.

5	carrot cake	metal cake tin	3 cups grated carrot 2 tsp ground cinnamon 1-1/2 cup flour 1-1/2 tsp baking soda 1 cup chopped walnuts 3 beaten eggs. 1/2 tsp salt 1 tsp nutmeg 1-1/2 cup sugar 1cup canola oil	sieve the flour and mix it with baking soda, nutmeg, cinnamon and salt together. blend grated carrots, sugar, oil, some walnuts and eggs. mix dry ingredients into the above mixture. pour it into a pan. bake the cake by selecting the menu. add food color to the cake if needed. garnish with remaining walnuts and serve.
6	Dates and walnut cake	metal cake tin	dates – ½ cup (chopped), boiling water – ½ cup flour - 1 cup salt – ½ tsp cinnamon powder - 1/4 tsp butter - 1/2 cup fine sugar - 3/4 cup vanilla essence - 1/2 tsp eggs - 1 walnuts - 1/2 cup, diced walnuts - chopped, to garnish	soak the dates in boiling water then allow them to cool at room temperature. sift the flour, salt and cinnamon together. cream the butter and sugar in a large bowl until the mixture is light and fluffy. add the vanilla and the egg and beat well. fold the sifted flour into the creamed butter, alternating with the dates. stir in the walnuts. spoon the cake batter into a greased and lined baking tin, garnish with walnuts and bake until the top is brown and a skewer inserted into the cake comes out clean. allow the cake to cool in the tin before turning it out.
7	Fruit cake	metal cake tin	1 cups brown sugar 1 ½ cups all-purpose flour 1 ½ tsp baking soda 1 tbsp ground cinnamon 1 tbsp ground cloves 1 tbsp ground allspice 1 tbsp ground nutmeg 2 eggs 1 tbsp lemon zest 1 tbsp vanilla extract 1/2 cups raisins	In a large bowl, mix sugar, flour, soda, Spices, eggs, lemon zest, vanilla, fruit, nuts and melted butter. Pour the mixture over a greased pan. Bake by selecting the programme Dessert. Check if done in between and cool on wire rack once baked.

			<p>1/2 cups chopped nuts 1/2 cups dried mixed fruit 1 ½ cups butter, melted</p>	
8	Eggless cake	metal cake tin	<p>1/2 tin (200 grams) condensed milk 140 gms self raising flour 1 tsp baking powder 1/2 tsp baking soda 60 ml melted butter or margarine 1 tsp vanilla essence</p>	<p>sieve the flour, baking powder and soda bi-carb together. mix the flour mixture, condensed milk, melted butter, essence and 75 ml. water and beat well. pour the mixture into a greased and dusted cake tin and bake by selecting the menu. the cake is ready when it leaves the sides of the tin and is springy to touch.</p>
9	sponge cake	metal cake tin	<p>eggs -6, sugar-1 cup, lemon juice-1tbsp, 1/2 tsp grated lemon rind, 1 cup flour.</p>	<p>separate the whites and yolks of the eggs, beat the yolks until thick and lemon colored, add sugar gradually, then add the lemon juice and rind. cut and fold in the sifted flour and cut and fold in the stiffly beaten egg whites. bake in an ungreased pan in a very moderate oven. bake until the cake is puffed, has lost its shine, and springs back when gently pressed.</p>
10	crème caramel	small oven proof bowls-6 nos	<p>2 1/2 cup milk, 8 tsp sugar, 3 tbsp milk powder, 3 eggs, 1tsp vanilla essence. 1 tsp vanilla custard powder.</p> <p>milk egg mixture preparation method: mix milk with sugar, milk powder and custard powder till smooth in a deep microwave proof bowl and microwave for 10 minutes, beat eggs and essence and add to the cooled milk.</p> <p>melt sugar (3 tsp) and pour in 6 small heat proof metal bowls and let set for 5 minutes.</p>	<p>pour egg mixture in the mould and cover with aluminium foil, and bake by selecting the menu.</p>

Cleaning and Care

1. Turn off the oven and unplug the power cord from the wall when cleaning.
2. Keep the inside of the oven clean. When food splatters or spilled liquids adhere to oven walls, wipe with a damp cloth. Mild detergents may be used if the oven gets very dirty. Avoid using spray or other harsh cleaners. They may stain, streak or dull the door surface.
3. The outside of the oven should be cleaned with a damp cloth. To prevent damage to the operating parts inside the oven, water should not be allowed to seep into the ventilation openings.
4. Wipe the door and window on both sides, the door seals and adjacent parts frequently with a damp cloth to remove any spills or splatters. Do not use abrasive cleaner.
5. Do not allow the control panel to become wet. Clean with a soft, damp cloth. When cleaning the control panel, leave oven door open to prevent oven from accidentally turning on.
6. If steam accumulates inside or around the outside of the oven door, wipe with a soft cloth. This may occur when the microwave oven is operated under high humidity condition. And it is normal.
7. It is occasionally necessary to remove the glass tray for cleaning. Wash the tray in warm sudsy water or in a dishwasher.
8. The roller ring and oven floor should be cleaned regularly to avoid excessive noise. Simply wipe the bottom surface of the oven with mild detergent. The roller ring may be washed in mild, soapy water or in a dishwasher. When removing the roller ring, be sure to replace it in the proper position.
9. Remove odors from your oven by combining a cup of water with the juice and skin of one lemon in a microwaveable bowl. Microwave for 5 minutes. Wipe thoroughly and dry with a soft cloth.
10. If the light bulb burns out, please contact customer service to have it replaced.
11. The oven should be cleaned regularly and any food deposits should be removed. Failure to maintain the oven in a clean condition could lead to deterioration of surface that could adversely affect the life of the unit and could possibly result in a hazardous situation.
12. Please do not dispose of this appliance into the domestic rubbish bin; it should be disposed to the particular disposal center provided by the municipalities.
13. When the microwave ovens have grill function is first used, it may produce slight smoke and smell. This is a normal phenomenon, because the oven is made of a steel plate coated with lubricating oil, and the new oven will produce fumes and odor generated by burning the lubricating oil. This phenomenon will disappear after a period of using.

WARRANTY

IFB Industries Limned. ("The Company") warrants to the original domestic purchase of this microwave oven ("Appliances") that it is free from defects in workmanship & materials. During 12 months from the date of purchase of the new microwave oven model, all the parts of the microwave oven and 36 months on Magnetron & Cavity, shall be replaced or repaired free of charge, on intimation to the Company I Company's authorized service centre nearest to the place where the appliance is installed This warranty is subject to Limitations of Warranty.

LIMITATIONS OF WARRANTY

1. This warranty is not valid in case of the following events.
 - a) If the warranty card is not fully and properly filled in and signed at the time of purchase I installation by the company's authorized dealer I service engineer.
 - b) If the completed warranty card is not presented to the authorized personnel at the time of service I repair.
 - c) If the appliance is not used in accordance with manufacturer's instructions given in the Operating Manual.
 - d) If the appliance has been serviced, repaired, opened or tampered by any unauthorized personnel.
 - e) If defects arise I caused by accidents, alteration, misuse, neglect, abuse, substitution of original components with spurious I non-genuine components, attack by household pests I rodents, fire, flood, earth-quake, lightning and I or any other acts of God I natural calamities.
 - f) If damages occur by improper electrical, circuit outside the appliance or by any defective electrical supply thereof.
 - g) If the machine serial number on the appliance is defaced, missing or altered.
 - h) If the appliance is taken out of India.
 2. This warranty does not cover any type of painting, plating including rusting etc or defects thereof.
 3. This warranty does not cover normal wear and tear of parts.
 4. Liability for consequential damages is neither accepted nor implied.
 5. Parts replaced or repaired under this warranty are warranted throughout the remaining of the original warranty period.
 6. Company is not liable for any delay in servicing due to reasons beyond the control of the company or any of its authorised service center.
 7. This warranty is not applicable, if the microwave oven is used for commercial purpose of at places like Institutions, Hotels, Hostels, Hospitals, Community Halls and other similar applications.
 8. For any service under this warranty beyond city I town I municipal limits from the Company I authorized service centre, a fixed charge of Rs. 250 /- will be collected from the customer in addition to the actual to and fro charges by the shortest route. Alternatively the customer can bring the appliance to the nearest service centre for carrying out the necessary repairs, at customer's own cost.
 9. During the warranty period whenever the appliance is shifted from the original city of purchase to another city or town where service is provided by the company's authorized service agent, a warranty transfer charge of Rs. 300 /- will be collected from the customer by the company's authorized service agent. The above charges also include the reinstallation of the appliance. However in case of transfer to a city where the company provides direct service, a nominal charge of Rs. 250 /- only will be collected from the customer towards reinstallation. The Company, however, shall not undertake the responsibility of shifting I transferring the appliance from the location where the appliance was originally installed.
 10. This warranty is issued subject to the jurisdiction of Kolkata courts, and I or other judicial/ quasi judicial forums having jurisdiction over the registered office of the Company.
- Note:** For all types of repairs I maintenance under warranty, the appliance shall be brought to the nearest Company service centre or its authorized service agent.
